

CRIUS

company

presentation

About us

We are specialized consultants in attracting non-reimbursable financing from various sources, mainly European funds and government funds

We prepare the necessary documentation for obtaining funding, manage project implementation, provide assistance during project monitoring and we offer technical consultancy services

We have opened offices in Oradea, Buzău, Târgu Jiu and collaborators in București, Timișoara, Hunedoara, Bacău, Râmnicu Vâlcea

Our team consists of **40 employees and collaborators** of various professions and specializations: economists, lawyers, accountants, specialists in areas of interest such as energy, agriculture, research and IT

Experience

We have over **15 years of experience**, **600+ clients nationwide**, **1400+ projects in various phases**, and **500+** million euros attracted as nonreimbursable financing mainly for the private sector

We have completed projects for various fields: **manufacturing, construction, tourism, medical, IT, agriculture, animal husbandry, aquaculture, energy, R&D-innovation and others**

We focus on quality and are innovatively organized in a way that allows us to have one of the highest success rates in Romania

CRIUS values

Our relationship with the customer is one of long-term partnership, a win-win partnership

We correctly assess the chances of success and stand by the client throughout the life of the project

We deliver quality. We are fair in our dealings with the customer and all the partners we work with

We try to constantly evolve and improve our services

We don't leave issues unresolved, we use our expertise and creativity to resolve issues that arise for the benefit of the client

We communicate professionally with the customer

Integrated services offered by CRIUS in obtaining grants

Preparing the necessary documentation to obtain funding

Assistance in project implementation

Assistance during sustainability and monitoring of projects

Technical consultancy services

Offered services

Integrated services offered by CRIUS in obtaining grants

	<p>We establish together with the beneficiary the project concept Identify the appropriate funding programme that the client can apply for and obtain European, governmental or other non-reimbursable funds</p>
	<p>Conduct pre-analysis of the organization: eligibility, group structure, financial indicators, etc. Propose solutions to maximise the chances of success depending on the targeted funding programme</p>
	<p>Prepare the feasibility study (where applicable), the business plan, the financial analysis, the cost-benefit analysis, the market and marketing studies, the funding application and the specific documentation, all of these documents being attached in the form requested by the funder in order to obtain the grant funding</p>
	<p>We develop some technical studies where we have expertise, mainly energy, IT, automation, advanced agriculture and medical</p>

Offered services

Integrated services offered by CRIUS in obtaining grants

	<p>We provide assistance in requesting and collecting the documents (declarations, studies, authorizations, permits, etc.) required for the project</p> <p>We assist the client in the project evaluation and contracting process</p>
	<p>Provide the necessary assistance to the beneficiary regarding the actual financing of the investment from banking or non-banking sources: carrying out the analysis and economic-financial projections for obtaining bank loans to finance the investment. We provide advice in the management and implementation of the project, as well as during the sustainability period</p>
	<p>Provide assistance to the beneficiary in carrying out acquisition procedures both in the preparation of the tender documentation and in the actual organization of the procedure</p> <p>We process payment requests/reimbursement requests (interim and/or final), supporting the client until the actual receipt of funds</p>
	<p>We assist the beneficiary in the relationship with the evaluating/financing institutions (Intermediate Body, Managing Authority, etc.) and coordinate the parties involved in the implementation</p>
